

# Newsletter September 2019

## Green room activities and news

September has been a busy month, we have already seen changes with the weather and we have been welcoming friends into the green room from the yellow room, and some new friends as well. We have had a fruit shop and have been making fruit kebabs, to go with our ongoing 'healthy eating' theme. We had mud week, where we used mud in lots of different way, and had lots of fun, messy play. We have also been playing with puppets and had a puppet show.

## Busy Bees activities and news

We said goodbye to the last of the school leaving children at the beginning of the month, so we have been busy getting to know our Caterpillar friends who have now joined Busy Bees, We have been exploring the room and the garden, and have been planting some more flowers...let's hope there is enough sun for them to come out! We have also been picking some of our lovely tomatoes that we have grown.

We have been preparing our new storyboard with Jack & the Beanstalk pictures, recognising shapes and making them ourselves. The show and tell letters have been A and B, and we have had some very interesting items brought in. We have also been playing our boomwhackers and recognising rhythm and beats.

## Yellow room activities and news

We have been welcoming more new friends into the yellow room in September, and we have been sharing our new toys with them. We have also been making and playing with scented playdough, as well as making gingerbread for our gingerbread man theme. We have been exploring our massaging kit and using the rollers brushes to see how they work. Dear Zoo has been our favourite book this month, and we have been going through all the animals we recognise.

We have been pretending to make tea with our new friends and also doing small group activities and practising our sharing skills.

## Other news

- *Inset day will be on Friday 11<sup>th</sup> October, the nursery will be closed on this day.*
